I have had cancer twice and my son has asthma. These are caused by a polluted environment. I am writing to express my strong support for the EPA's draft Interim Framework for Advancing Consideration of Cumulative Impacts. Enforcement and accountability must remain at the core of this policy. Without strict oversight, polluters will continue harming vulnerable communities with no consequence. The stakes are too high to allow polluters to continue operating unchecked. Please protect public health.

Sincerely,
Mrs. Doris Fulton
