November 14, 2019

The data upon which “Human decisions and machine predictions” is based (Kleinberg et al., Quarterly Journal of Economics) contain confidential information about criminal defendants in New York City and so for that reason are restricted-use. Accessing the data will require entering into a data sharing agreement with the owners of the records used in that paper, the New York State Division of Criminal Justice Services and Office of Court Administration.

Inquiries about requesting access to these data should be directed to:
