Wikipedia	Susan Woijicki	1,700,000,000	$0	$0	Gave $8000 through Google Netpac Google NetPAC (GNP) was founded in 2006 as a response to the prohibition, by U.S. law, on corporations making political contributions. The PAC enables Google to make direct contributions to federal political candidates. GNP is overseen by Google's public policy and government affairs department. Funded through voluntary donations by Google employees, the PAC has an advisory committee composed of senior Google employees who decide what issues should be considered for lobbying. GNP money cannot be spent in federal campaigns, but can be used in individual states where no such prohibition exists. While GNP contributions to campaigns and candidates are overseen by the Public Policy and Government Affairs Department, it is also monitored by Google's director of state public policy, and are also reviewed by Google's Ethics & Compliance team and outside ethics counsel. - Wikipedia	https://www.fec.gov/data/receipts/individual-contributions/?contributor_name=Susan+Wojcicki
