Perspective-Taking Through Partisan Eyes

Codebook

Background Variables

- resp_uid: unique respondent ID
- wave: survey wave (1 = mturk, 2 = lucid, or 3 = prolific)
- svy_duration: survey duration
- manip_check: Respondent passes
- check1_captcha: Manipulation check (Wave 3 only)
- check2_swim: Manipulation check (Wave 3 only)
- ipw: inverse probability weight
- date: date

Treatment Indicators

- treat_c: country treament condition (0 = control, 1 = India, or 2 = China)
- treat_t: international treaty condition (1 = nuclear or 2 = climate)
- treat_pt: perspective taking treatment (0 = control or 1 = treatment)

Outcome Variables

- dv_coop: supports international cooperation
- dv_coop_dum: supports international cooperation (binary indicator)
- dv_qual: respondent's qualitative response (Waves 1-2 only)
- dv_condition: respondent's supports conditional cooperation (Wave 1 only)

Mechanism Variables (Wave 3 only)

- manip_india: Believe India will/will not support international cooperation
- manip_ee: Believe it is important to emotionally engage with others
- manip_ce: Believe it is important to understand others' point of view
- manip_attention: Tend to go with gut vs tend to think things through
- manip_thermo: feeling thermometer towards india

Covariates

- c_pid: Respondent party identification
- c_pid_long: Respondent strength of party identification
- c_pid_strong: *Strength* of party identification (higher for either extreme)
- c_dem: Democrat/Non-Democrat binary indictor
- c_attention: Respondent attentiveness to politics
- c_age: Respondent age
- c_education: Respondent education
- c_gender: Respondent gender

- c_male: Respondent gender binary indicatory
- c_edu: Respondent education
- c_white: Respondent self-identifies as "white"
- c_black: Respondent self-identifies as "black"
- c_latino: Respondent self-identifies as "latino"
- c_ideology: Respondent political ideology
- c_income: respondent's income
- c_interventionist: respondent's support for US engagement in foreign affairs
- c_trust: respondent's belief that USA can trust other nations in foreing affairs
- c_pt_allsides: repsondent believes they tend to see problems from all sides
- c_pt_touched: respondent self reports to be touched by feelngs over others
- c_pt_tender: respondent self reports to have tender feelings
- c_pt_nopov: respondent self reports to have difficulty seeing things from others' point of view
- c_pt_notsorry: respondent
- c_pt_index: index of empathy
- c_ce_index: index of cognitive empathy
- c_ee_index: index of emotional empathy
- c_fpmil_milstrength: military strength is good
- c_fpmil_influence: US influence in foreign affairs is good
- c_fpmil_milbad: US military force only makes things worse
- c_fpmil_index: support for US military index
- c_fpcoop_un: US should cooperate with United Nations in settling international disputes
- c_fpcoop_multilateral: It is essential for the United States to work with other nations to sovle problems
- c_fpcoop_active: The US needs to play an active role in solving conflicts around the world
- c_fpcoop_iso: The US governmetn should just try to take care of the wellbeing of Americans
- c_fpcoop_index: US foreign policy cooperation index
- c_fpcoop_index_extreme: *Strength* of beliefs about US foreign policy cooperation (higher score for either extreme)
