INTRODUCTION AND CONSENT

Section: Introduction

Enumerator: Introduce yourself, and then read out the following statement to the interviewee(s).

We have been employed by XXX, to investigate XXX.
We would like to ask you some questions about your farming practices, other work you might do, foods that you eat in your household, and also who does what jobs.
The interview will take about one hour. Everybody is asked the same questions. You will not be judged in any way, and your identity kept anonymous. If you don't want to answer something, that will not cause a problem. We will use the information which you give us to plan for more successful projects in your communities in the future.
Do you have any questions?

Do you consent to provide information for this survey?
