Code for "Let the Worst One Fail: A Credible Solution to the Too-Big-To-Fail Conundrum"
by Thomas Philippon and Olivier Wang
November 2022

The two figures in the paper, Figure 1 (Fig1.pdf) and Figure 2 (Fig2.pdf) can be obtained by evaluating the Mathematica notebook **Figures_1_2.nb** using Evaluation -> Evaluate Notebook.

The file was written and last run on Mathematica 12.0.0 on macOS 12.0.1.

Running times: less than 1 second on a MacBook Pro 2019 with 2.6 GHz 6-Core Intel Core i7 and 32 GB 2400 MHz DDR4.
