17:16:43

Juniperus

17:16:47

Moderator
Juniperus check the following instructions:
17:17:10

Laurus
Yeh I don't understand what I'm actually meant to be doing. Are you going to be giving instruction?
17:17:14

Moderator
and all:
17:17:15

Moderator
Yes here it is:
17:17:25

Moderator
Welcome and thank you for joining us! You are going to play a serious game called New Shores, it is a simulation of an island that you are going to develop collectively by taking actions and within the game, we would like you to treat it as if it is your local neighbourhood and think about what choices would you make for living in this space

17:17:39

Moderator

Please note that New Shores is not a regular game, as it does not have one defined goal. Therefore, we encourage you initially to think what would be your personal goal in the game and keep a note of it.
17:18:05

Juniperus

Ok thanks
17:18:52

Moderator

I hope it is clearer now
17:19:08

17:20:53

Laurus

17:20:59

Acer

17:21:04

Juniperus

17:21:10

Moderator

great I am restarting the game

17:21:12

Game Event

Game has been restarted by the Moderator
17:21:15

Moderator

you can use your action points
17:21:33

Moderator

refresh your page if you cannot see the game interface
17:21:43

Juniperus

Do our action points get refilled each round?
17:21:53

Moderator

yes
17:21:56

Laurus

Action points to do what?
17:21:57

Moderator

you can cut down trees, collect beries, extract coal
17:22:15

Moderator

this was in the instructions video
17:22:21

Fraxinus

HOW DO I GET MORE ACTION POINTS
17:22:40

Moderator

you cannot once you have used them all
17:22:50

Fraxinus

OK
17:22:58

Moderator

click on each square of the isnland and you can see what actions you can take
17:23:13

Laurus

I understand the instructions I just don't get the point
17:23:21

Moderator

you can also help build pulic buildings
17:23:29

Moderator
or you can build your own private ones
17:23:39

Moderator
you can protect buildings against disasters as wel
17:24:02

Fraxinus
CAN I ASK DO I GET MORE POINTS AS I GO ALONG OR IS THAT IT
17:24:28

Moderator
Once the operations phase is over we will go to results phase and you will see the impact of your actions on the island
17:24:43

Fraxinus
OK
17:24:56

Moderator
@Fraxinus no you cannot get more action points but in each round they are refreshed
17:25:15

Fraxinus
OK
17:25:23

Moderator
30 secs to results
17:25:27

Moderator
Now we are in results phase
17:26:02

Moderator
please click on the environment tab at the bottom of your screen and tell what you see
17:26:21

Moderator
in terms of CO2 concentrations
17:26:34

Moderator
coal use and forest condition
17:26:42

Betula
59
17:26:47

Moderator
also pelase let me know if you had problems playing the game and need help
17:27:01

Juniperus
the concentration of CO2 and coal use went up, the forest condition went down
17:27:08

Salix
CO2 concentration has increased risk of flooding
17:27:15

Moderator
@Betula so it increased because you started develping on the island
17:27:24

Moderator
yes @Salix
17:27:38

Betula
yes
17:27:39

P3
what about the forest condition?
17:27:47

Salix
Coal use also increased
17:28:03

Juniperus
presuming we chopped down some trees
17:28:06

Phoenix
To Juniperus sent a small amount of money to you as your my neighbour phoenix
17:28:06

Acer
i'm guessing we all see the same results as we're on the same island?
17:28:18

Juniperus
Thank you Phoenix!
17:28:22

Moderator
Yes @Phoenix great you can trnasfer money as well
17:28:25

P3
@Acer yes you are seeing the same results
17:28:37

Moderator
Every time we will have an operations phase for 4 minutes and a results phase for 3
17:29:04

Salix
Is the forest condition the number of trees?
17:29:14

Moderator
in operations you will take actions and in results you can see the oucome of actions and plan what to do in the next round
17:29:27

Moderator
@Salix it is related to the number and condition of trees
17:29:47

Moderator
Any other questions?
17:29:56

Moderator
We will then play another test round and start the game officially after that
17:30:11

Laurus
Yeh I Duno if I'm being really slow I still don't get the point
17:30:14

Betula
if we overdevelop its affect the condition of the island, so we need to find a balance?
17:30:21

Juniperus
So we don't see what everyone actually did unless we 'monitor' them. but in theory we could all monitor someone and see everyone's results?
17:30:42

Salix
While also protecting our own houses and our community from disasters?
17:31:07

Moderator
@Laurus when we are in operations phase you can click on trees on the island and decide if you want to collect berries/cut down trees or on coal deposits and extract them this way you use action points and collect money
17:31:41

Laurus
Yeh done that... and then?
17:32:00

Moderator
then you can use the money for private of public investment by building private or public buildings
17:32:05

Laurus
Right ok: and then during results we see what everyone else has done

17:32:20

Moderator

as a team you can decide your startegy of development on the island
17:32:27

Juniperus

Seen as we have no coal left, is the only way to get cash to chop down trees and extract coal?
17:32:29

Moderator

you can see that the island also has some statistics
17:32:40

Laurus

To basically see whether you want to develop alone or help others? Is that the point l?
17:32:44

Moderator

education health and culture
17:32:49

Acer

sometimes coal is hidden beneath trees
17:33:05

Moderator

and there is also your personal welbeing you can increase
17:33:05

Laurus

Alright got it
17:33:15

Moderator

it is up to you the team to decide on your priorities when we start playing officially
17:33:24

Juniperus

Yes but you have to chop down the trees to get coal to get money. Is that the only way? You obviously don't want to just chop down all the trees
17:33:37

Moderator

This is up to you to decide
17:33:57

Phoenix

you can plant new trees to replace cut ones
17:34:14

Moderator

SO I am moving to another test round of operations and results and yes you can invest money collectively in building and protecting publica buildings and you can monitor someone to see what the are doing

17:34:40

Juniperus

True but they take a few goes to grow so presuming if you do too many it'll cause some sort of disaster

17:34:47

Betula

use coal to get money and develop the island but plant elsewhere to to remain sustainable

17:34:52

Moderator

we go on operations again

17:35:13

P3

please start playing the game

17:35:21

Moderator

sometimes I am P3 so it is me the moderator

17:35:43

Moderator

just so you know...

17:36:14

Moderator

try to build a public building to see how it works

17:37:31

Moderator

I can see someone built a private room

17:37:44

Moderator

and someone protected their own building

17:37:52

Juniperus

Do you only get 3 actions each round now?

17:38:19

Moderator

No you get the same each round which should be six

17:38:44

Juniperus

I got 8 first round and 3 this round

17:38:56

Moderator

but if you are monitoring someone you loose action points

17:38:58

Juniperus
I'm not
17:39:03

Moderator
sorry 8
17:39:05

Moderator
I meant
17:39:08

Moderator
Or someone is monitoring you
17:39:27

Salix
how do we monitor or not monitor each other?
17:39:41

Moderator
When we go to operations phase the is an eye icon you can click to monitor
17:40:07

Salix
thanks
17:40:28

Moderator
can all check the environment tab and let me know what you see?
17:40:37

Moderator
What happened to the island?
17:40:48

Acer
risk of flood rising again
17:40:51

Juniperus
So if someone else monitors you, you lose action points?
17:40:52

Acer
we need to build some defence against this
17:40:59

Fraxinus
FLOODS AND HURRICANES
17:41:06

Laurus
Co2 went up
17:41:11

Moderator
yes
17:41:18

Laurus
Forwsy condition went down
17:41:20

Phoenix
Co2 has gone up
17:41:33

Juniperus
Forest condition went down but not as bad as in the first round
17:41:37

Moderator
what about education, culture and health statistics at the bottom of the screen
17:41:40

Betula
i think we should protect the health centres as top priority
17:41:43

Acer
i wanted to contribute to the health centre but didn't have enough action points
17:42:09

Moderator
great Betula what others think?
17:42:13

P3
all do it in the next round
17:42:13

P3
and decide collectively
17:42:15

Salix
Yep I agree
17:42:29

Laurus
Why do u think that’s important betula?
17:42:29

Betula
me too, so we will need to start prioritising as a group
17:42:31

P3
we all should contribute a small amount for public buildings in the next round
17:42:48

Laurus
I started a public building and no one contributed
17:43:03

Salix
We should also protect the school if a disaster hits there
17:43:09

Salix
I didnt see it!
17:43:22

Moderator
If you come up as P3 please post your name in front
17:43:23

Salix
What is it?
17:43:26

Moderator
As it is not only me who has the problem
17:43:36

Laurus
Another health centre
17:43:38

Acer
salix and juniperus contributed to the health centre that i wanted to conttibutre to
17:43:52

Betula
because if disaster hits we can dave inhabitants and rebuild. educcation should be second i believe so we have highly skilled inhabitants
17:43:54

Acer
so i'll do that next round
17:43:57

Salix
oh yeah at the bottom, great!
17:44:01

Salix
I kept getting locked from doing anything
17:44:10

Salix
I think it's my computer
17:44:14

Juniperus
Can everyone donate some to protect the current public buildings too
17:44:15

Betula
happy to contribute on anything we decided collectively as a group
17:44:19

Moderator
Why Salix?
17:44:20

Moderator
What is going on?
17:44:27

Salix
not sure - I got a blue line in the middle of the screen but it was fine once I reloaded
17:44:57

Moderator
try reloading and if things become bad log out and lon in again
17:45:17

Laurus
Salix same happened to me
17:45:18

Laurus
Just refreshed page
17:45:36

Moderator
So would you all like to play another test round or are you good to start playing the game officially?
17:45:40

Juniperus
Same but then it went off. I think I might have been trying to do something someone was already doing?
17:45:52

Salix
Happy to start
17:46:02

Moderator
in case anyone needs another test round please let me know now
17:46:19

Phoenix
i am happy to start
17:46:23

Laurus
I don't mind BUT instructions were. Treat it like ur own area and I ain't going to lie if a storm hit etc I'm protecting my own house first
17:46:25

Acer

lets try to avoid cutting trees as much as much as possible this round
17:46:42

Moderator
ok I am restarting the game now so it is all yours!
17:46:48

Acer
we should all have some money now
17:46:52

Betula
i think if everyone is comfortable to we should start and work together
17:46:54

P3
Or plant after you've cut!
17:46:56

Game Event
Game has been restarted by the Moderator
17:46:58

Acer
and need to give the forests a chance to grow
17:47:07

Moderator
Game restarted
17:47:10

Phoenix
you need to protect your own house first in order to help anyone else on the island i think
17:47:15

Moderator
you will have 10 rounds to play and see the impact of your decisions and actions on the island now
17:48:24

Betula
why when i select on my own building to protect it, it says there is no buiding on the patch?
17:48:35

Moderator
please refresh
17:48:44

Moderator
all please refresh
17:48:52

P3
I tried to cut down a tree and it took 4 point away!

17:48:56

Moderator

maybe because I restarted the game
17:49:05

Betula

i refreshed, now my money has gone
17:49:14

Moderator

who is P3 now please post your name
17:49:15

Salix

Sorry that was me - Salix
17:49:31

P3

ok I am pausing the game
17:49:37

Acer

i am trying to protect the health center and the bottom of the island and it keeps saying "you shoud choose builidng" but i have chosen the builiding
17:49:41

Moderator

Moderator now
17:49:42

Juniperus

I'm trying to take coal and it says i dont have action points but I have 1 left
17:49:44

Acer

not sure why it won't let me conitribute
17:49:51

Moderator

I will restart the game and please all refresh your tabs
17:50:02

Game Event

Game has been restarted by the Moderator
17:50:11

17:50:35

Moderator

I am starting now
17:50:56

Salix
Mine cut after 5
17:51:37

Moderator
@Salix I can see in the player dashboard that you used the 8 points
17:52:43

Salix
I didn't!
17:52:53

P3
strange
17:53:28

Salix
Its fine though
17:53:30

Acer
i used like 4 or 5 and they all finished already
17:53:33

Moderator
ok lets continue
17:53:36

Betula
the game is not active?
17:53:39

Salix
I'll just wait to the next round
17:53:42

Juniperus
There's coal on the screen in the bottom left but when I tried to take it, it says it's not there. It still is though (I ran out of tasks now thouth)
17:53:45

Moderator
maybe someone took it befor you
17:53:57

Moderator
no the game is still on
17:54:02

Moderator
operations phase 50 secs to go
17:54:10

17:54:20

Moderator
phase
17:54:22

Moderator
Ok we are now in results
17:55:02

P3
please check the environment tab and tell me what you see
17:55:14

Moderator
moderator
17:55:24

Moderator
in terms of CO2, coal use and forest condition
17:56:02

P3
coal use, up. forest condition down
17:56:30

Salix
And our coal use
17:56:37

Moderator
Also please check the statistics of the island there are numbers next to the education, heart/health and culture icons
17:56:41

Juniperus
1 on each?
17:56:55

Moderator
great
17:57:01

Moderator
yes Juniperus that is right
17:57:10

Laurus
Sorry I had to refresh about 4 times as it froze.
17:57:18

Laurus
So conditions are still down?
17:57:24

Moderator
please decide what you will do in the next round now
17:57:24

Moderator
yes but we restarted the game
17:57:32

Betula
yes i can see on eachx3
17:57:33

Laurus
Didn't make a difference
17:57:34

Salix
There will be 37 new trees in the next round
17:57:47

Salix
so that's good
17:57:50

Salix
I've got money so am gonna protect the health centre and my house next round
17:58:17

Juniperus
I think protect your own houses and buildings that are already there, then we can look to build more
17:58:20

Betula
@salix i agree.
17:58:32

Phoenix
i am going to donate money for the health centre next round
17:58:39

Acer
sounds like a plan
17:58:43

Salix
And plant any trees where there are spaces
17:59:00

Betula
as risk of floods would recommend investing in your own homes also
17:59:01

Laurus
So last round did anyone actually donate money to the health centre and school?
17:59:05

Juniperus
What difference do we think it makes to what age trees you cut down to get extra £?
17:59:09

Juniperus
Yes I did
17:59:11

Salix
I wanted to but I ran out of moves!
17:59:14

Laurus
I saw only 3 people did but then I froze
17:59:27

Betula
@laurus i donated to the health centre
17:59:28

Moderator
you still have 40 secs to discuss
17:59:28

Phoenix
acer i think if we cut to many trees in our area we are more than likley to get flooded
17:59:37

P3
lets continue to do so but also look at education where we can also invest
17:59:51

Acer
phoenix yea im done cutting now
18:00:01

Salix
True
18:00:04

Moderator

Phoenix
if we dont use all our action points are they added to the next round
18:03:55

Laurus
Why do we need to protect the cultural centre?
18:03:56

Betula
i dont have much money so im planting where i can
18:04:02

Acer
salix i've contributed
18:04:19

18:05:01

Laurus

Everything is up again and forest down. How about do nothing next round lol

18:05:10

Salix

All the risks slowed down but still bad

18:05:18

P3

lol

18:05:20

Moderator

yes you slowed the increase of CO2

18:05:33

Juniperus

Much better than first round though

18:05:38

P3

all i have done is plant. think its take ⅔ rounds to see the benefit of planting

18:05:51

Moderator

ed, health and culture are the same

18:05:56

Salix

I don't really undertand that as we protected the health centre

18:06:16

Salix

is it just representing the number of each?

18:06:26

Moderator

it is good you did it will help with disasters

18:06:32

Moderator

almost @Salix

18:06:54

Phoenix

do our actions points get added to the next round if we dont use all of them

18:06:56

Moderator

no

18:07:01

Moderator
so maybe better to use all of them
18:07:11

Moderator
ine ach round
18:07:13

Moderator
what do you plan for next round?
18:07:35

Salix
I didn;t want to cut any more trees so I used my remaining ones to pick berries! Wine all round
18:07:43

Moderator
:)
18:07:57

Acer
continue protecting and investing in the island
18:07:58

Phoenix
plant some more trees in my area
18:08:00

Juniperus
Do you get more berries from the older trees?
18:08:06

Salix
not sure.
18:08:28

Phoenix
my house is right at the sea edge, so i think i will be hit first with a disaster
18:08:39

Moderator
30 secs until operations
18:08:44

So maybe start another school andprotect the buildings again?
18:09:01

Moderator
operations nowQ
18:09:17

P3
The medical centre is also right next ot the coast
18:10:23

Juniperus
We need more people to contribute to that new health centre to get it built
18:10:29

Salix
so thats a concern
18:10:30

P3
When we finish round 5 operatinons and results we will take a short break of 10 minutes and then come back again to continue

18:14:02

Juniperus

ooh we had a hurricane

18:14:09

Juniperus

18:14:44

Acer

the health center is very exposed

18:14:45

Moderator

you can see the number 1 under 65 on the CO2 graph

18:14:53

Betula

where do you see that?

18:14:55

Juniperus

On the 'report' button at the top

18:15:06

18:15:07

Moderator
and on the map on the left middle
18:15:21

Betula
ok thanks
18:15:22

Salix
I;m worried about the health centre. It looks like the hurrican hit just above it on the map
18:15:28

Moderator
you still have a minute to decide on your actions
18:15:32

Salix
We should keep the trees surrounding it for protection
18:15:40

Acer
agreed salix
18:15:47

Salix
but finish finiancing the health centre
18:15:52

18:16:29

Moderator
operations is ON!
18:16:44

Laurus
Even building will contribute to co2 emissions
18:16:44

Juniperus
You sometimes need to cut to get cash to protect the buildings though. think if it's done in moderation it's ok?
18:17:00

Betula
yes agreed
18:17:08

Betula
we need to cut in moderation to invest
18:17:18

Laurus
Ok but no one agreed who would be cutting
18:17:42

Laurus
So how do we moderate that?
18:17:49

Betula
that the discussion we are having now
18:17:55

Betula
maybe we cut a few but stay away from the buildings we're trying to keep safe
18:18:11

Juniperus
We're not protecting the cultural centre
18:18:13

Laurus
Why do we need the cultural centre? I think u said that before
18:18:35

Juniperus
does it make a difference if trees are near buildings in this? I just went for old trees
18:18:42

Salix
It takes 2 point every time you plant a tree
18:18:52

Betula
yes,we need to prioritise
18:18:57

Juniperus
Because it's supposed to be a town. You need things like theatres, etc. Fun things!
18:19:15

i wanted to start a university but did not have enough coins
18:21:59

Betula

18:23:02

Salix
Might need to cut a few trees to get some money to invest
18:23:05

P3
Maybe we agree that 1 person chops down enough trees and takes the coal to build a university. The rest of us plant trees and protect buildings
18:23:13

Phoenix
at some point i would like a cinema room but can wait a few rounds
18:23:15

has everyone protected their homes now?

18:25:05

Laurus
Used all my points to plant trees
18:25:08

Salix
I just put a chunk of money to protect the second health centre
18:25:34

Salix
So it wont take much more if others want to contribute
18:25:49

someone started a health clinic
18:25:56

18:28:47

Betula
i agree with @phoenix
18:28:53

Juniperus
Yep agree with @phoenix
18:29:04

Betula
but we will need to cut and extract for the money. unless everyone has surplus
18:29:17

Juniperus
Unless we let 1 person cut down trees next round until they have 72 coins
18:29:33

Laurus
All that chopping lol just kidding. So what next?
18:29:39

Laurus
Uni?
18:29:47

Phoenix
we can nominate someone next round and all give maybe 5 coins each to get the university started
18:30:02

Salix
Sorry all - my pagee froze
18:30:20

Juniperus
@betula - do you want to chop big trees to build a uni (and extract coal)
18:30:21

Laurus
I don't mind giving more than 5. That way gets done quicker
18:30:30

Juniperus
we'll then all contribute to building it
18:30:32

Phoenix
lets nominate someone then to give money to
18:30:55

keep your thoughs for actions in thr next round as we will take a 10 minute break now to stretch
18:30:55

Phoenix
great
18:31:07

Betula
i do not mind. but it may be wiser for someone who has more money now to do it so they only need to chop down as little as possible
18:31:08

10 minute brekak now
18:31:11

Betula
i only have 0.4
18:31:14

18:31:28

P3
78.4
18:31:34

Juniperus

18:32:34

Betula
my funds are very low as i am investing so if anyone with more coins is happy contirbute, please do
18:34:27

Betula
if p3 (whoever that is) has a lot then i think we send them some so they can invest but we dont drain their funds completely
18:35:15

is P3 is happy to do that?

19:08:47

Acer

19:08:54

Salix

19:09:00

Salix
It's almost there
19:09:14

Laurus
We did plant but we also added home gyms...
19:09:15

Moderator
put all your effort for the final round

Laurus
Which would have contributed to hurricanes etc
19:09:30

Laurus
I only have 5 coins I will give to the school or whatever's not complete
19:09:49

on what aspects?
19:17:22

Moderator
moderator
19:17:26

Laurus
Done good on trying to rebuilt when we were going wrong and had to be done collectively
19:18:06

Salix
I think we managed to protect important buildings and services on the island
19:18:42

Betula
think once we had an agenda and a plan of what we wanted to build on it was easier
19:18:43

Acer
i think it's a reflection of trying to get the balance right in real life
19:18:46

Moderator
Please all share your thoughts now that you can see what everyone else was doing
19:18:51

Phoenix
WE MANAGED TO BUILD EVERYTHING AND WENT A GOOD WAY TO PROTECT AS MUCH AS WE COULD
19:19:00

Fraxinus
once we worked to together it became better
19:19:09

P3
how do you think you did in terms of personal welbeing?
19:19:12

Moderator

19:19:17

Betula

it was an eye opener however finding out how much coins/money others had compared to you
19:19:19

Acer

the more human then obviously it will have an impact on the environment but we replanted trees and protected bulidings which was good
19:19:34

Salix

yeah I think we found as much balance as possible
19:19:54

Juniperus

Its interesting that generally, those that cut more, then donated more to the town. But there wasn't really anyone that went mad just for themselves without contributing to the town
19:19:59

Moderator

How do you feel after the game is over? Was it difficult to achieve collective goals?
19:20:03

Salix

it was frustrating that the difference between harvesting and chopping was so different
19:20:15

P3

but also makes sense
19:20:20

Moderator

Was it difficult in terms of now knowing who the other players were?
19:20:35

P3

i think you want have been a little more selfish, but when there is a greater goal you can sacrific
19:20:38

Moderator

*not

Betula

betula
19:20:53

Moderator

What does it mean to win in this game?
19:21:16

Salix

I didnt mind no knowing the other players because we were all in communication
19:21:22

Betula
my grammar was terrible there but you get the drift lol
19:21:29

Salix
it would have been interesting if there had been players we could not communicate with
19:21:33

Salix
as that's more realistic
19:21:37

Juniperus
It was hard to progress, build things etc without affecting the CO2
19:21:38

Moderator
no worries Betula
19:21:39

Phoenix
I TRIED NOT TO GET TOO GREEDY BUT I WANTED A CINEMA AND GAMES ROOM
19:21:39

Betula
hahaha @phoneix
19:21:49

Moderator
Do you think it would be easier for you to talk to other players rather than texting?
19:22:29

Salix
I saw someone had their gym right next to a quarry!
19:22:34

Betula
i was very conscious of the c02 number
19:22:35

Salix
yeah me too
19:22:46

Juniperus
Feels like generally a team win. People got a little personal gain, but overall we built a good town and didn't destroy the environment too much
19:22:50

Laurus
Possibly easier texting because no one would feel offended
19:23:02

Salix
Yah good over text
19:23:17

Moderator
How did your goals change during the game?
19:23:20

Juniperus
Yes agreed. Easier to type than hear actual voices!
19:23:26

Laurus
In real life though I think I would be way more protective of my house than the local school
19:23:27

Betula
@moderator yes and no. i modern age texting is fine. but feels a little more personal when you can talk and discuss
19:23:33

Salix
In real life, texting can so easily be misunderstood
19:23:55

P3
especially when you are asking people for money"
19:24:09

Salix
salix
19:24:17

Juniperus
At the beginning it was making sure e had the basics, then later on felt like we could be a little more selfish as long as we kept it in check
19:24:32

Betula
yes agrees @laurus pretty sure if there was a flood coming you'd protect your home before the local school. i'd rather home school and have a roof over my head!
19:24:56

Salix
Absolutely
19:25:15

Salix
except you never know when it's going to hit
19:25:24

Salix
and you children could be in that school
19:25:31

Moderator
What do you think would have happened to the island if you had continued playing the game?
19:25:38

Moderator
beyond round 10
19:25:50

Laurus
I think it would continue up and down
19:25:52

P3
we'd have kept building and run out of space for trees - feels very realy life!
19:26:04

Laurus
Cos u have to build to survive but it then kills nature
19:26:14

Juniperus
juniperus
19:26:16

Salix
But as we built, we'd run out of room!
19:26:18

P3
in he end everyone would have their own private roos and the forest area would be cut in half
19:26:23

Betula
i think we would have seen more benefit in investing in education. more technology from the future bright minds to protect the island
19:26:35

Moderator
Was there any specific barrier to achieving your goals you would like to mention?
19:26:53

Phoenix
also good health care
19:26:54

Betula
we would have continued to plant as we were all conscious of the c02
19:27:00

Laurus
Money
19:27:06

P3

if we concentrated on keeping that down the natural disasters would have slowed down
19:27:16

Salix
Money
19:27:28

Betula
definitely money
19:27:42

Juniperus
Money
19:27:46

P3
and the only way to make enough money to invest was by cutting down trees
19:27:48

Acer
its crazy because in order to protect the environment, we had to cut tress which is bad for the environment, in order to make money for investing in the environment and protectionof the area
19:27:52

Moderator
COuld you describe the community you have created in this game? How did it feel to be its part?
19:28:07

P3
i wish there was another way to make money
19:28:14

Salix
I wonder what would have happened if we had picked berries for 10 rounds!
19:28:18

Juniperus
And when I tried to build a theatre, there was no space to put it. Cut a tree and someone put a new one quicke than I could do it
19:28:18

Betula
it was a catch 22, the only way to make money to invest was detrimental to the island, so it was a diffcult decision for the group
19:28:24

Phoenix
it was great everyonw got along no one was sanctioned
19:28:32

Salix
And we had no losses

19:28:51

Laurus

At first I felt a bit outcast as I didn't agree with decisions but then just went along and understood why people were saying these things
19:29:06

Laurus

But in beginning I was thinking more selfishly about what I would build
19:29:25

Moderator

thank you all for your amazing insights!
