Replication Instructions

The Impact of NAFTA on U.S. Local Labor Market Employment

Journal of Human Resources

Felipe Benguria

June 2023

- I provide the data and code to generate all the figures and tables in the paper.
- To generate all the tables and figures, change your directory in the "run replication" dofile in the "dofiles" folder and then execute the file.
- The results will go to the "results" folder. Intermediate data files will be stored in the "work" folder.
- The software used is Stata version 15.1. The code requires the Stata package reghdfe (I used version 5.7.3).
