Gazetteer of the *Carte générale & particulière de la France,*
sheet number 52 *Clermont en Auvergne.* 1759-1777, 2016-2019

Original 610 × 955 mm colour map (« grand aigle » format) at a scale of 1: 86 400 or 1 line for 100 toises. Drawn up from 1759 to 1777 under the direction of César François Cassini de Thury, Charles Étienne Louis Camus (then Rodolphe Perronet) and Étienne Mignot de Montigny. **Triangulated from 1759 to 1775** by P. de La-Court (lbz publ.8d, 1759), François Pasumot, Claude Pizet, Dallier and Dallier (no. 60, c. 1766-1766), Louis Le Bel (sE, 1766-1768, ne and no, 1769), Dubois et Louis Cabay (no.60, 1772-1773), Querfy & François La Ruelle (se, 1774-1775). **Field checked, 1767-1774** by P. Renault (se, 1767-1768), Querfy & F. La Ruelle (no-ne-no, 1774). **Map engraved in Paris in 1774-1777** by Louis Capitaine son (for the plate, 1774-1776) and Nicolas Bourgoin (for the letter, 1775-1777). Printed intaglio on the press of Paris Observatory in 1777 on behalf of the *Compagnie associée pour la carte générale de la France.* Presented to the King and the Royal Court, Versailles, April 16, 1777 (« silk printing »).[a]

Vector geographic data extracted from the georeferenced then rendered under QGIS as a digital map mimicking the original style of the Cassini map. The original historical map has been georeferenced and its content manually extracted by the GeoHistoricalData (EHESS / IGN / UCA) in 2016-2018: Nathalie Abadie, Stéphane Baciocchi, Pierre Boivin, Julien Chadeyron, Paul Cristofoli, Jean-Michel Delaveau, Bertrand Dumenieu, Stéphane Gomis, Maurizio Gribaudi, Isabelle Langlois, Claude Motte, Julien Perret & Marie-Christine Vouloir. Printed at the scale of 1: 69 000 in Saint-Mandé, France, in January 2019 by Thierry Chaffaud and Régis Fdol at IGN France Printed Products Manufacturing Department. With the support of the *Centre de Recherches Historiques* (EHESS/CNRS), the *Centre d'Histoire « Espaces & Cultures »* (UCA), the *Laboratoire des Sciences et Technologies de l'Information Géographique* - LaSTIG (IGN), the *Laboratoire de Démographie et d'Histoire Sociale (EHESS - Centre de Recherches Historiques)* and the SoDUCo project (grant Project-ANR-18-CE38-0013).

MAP 1. Successive drafts of field surveys, map corrections and reviews (1759-1775)

a. Main primary sources to establish the critical edition of the original historical map...

INDEX OF CITIES, TOWNS & bell towers keeping parish registers[b]

INDEX OF HAMLETS, following the original engraving, in alphabetical order, with mention of their location in the map

INDEX OF FARMS, following the original engraving.

INDEX OF CHAPELS… following the original engraving.

…AND RELIGIOUS HOUSES following the original engraving.

GEOGRAPHICAL FEATURES: « *There is about one twentieth of this map covered with woods and heather. It is fed by two rivers and many streams or torrents that descend from the mountains.* »

d. NAT. ARCH.- F/20/443, J-B. F La Michodière, *Table Alphabétique…, op. cit., f. 2*

INDEX OF CASTLES, following the original engraving.

INDEX OF MANORS, residence of nobility and gentry, following the original engraving.

INDEX OF WATERMILLS, following the original engraving.

TABLE 1. Cartographic symbols used to map places in sheet number 52

	Cities	Towns	Parishes	Religious houses	Chapels	Crosses	Castles	Hamlets	Manors	Farms	Watermills	Windmills	Gallows	Cahuts and ports	Total
Number of symbols	16	22	234	11	93	28	196	2277	39	1135	501	1	5	6	4564
without toponym	-	-	1	-	-	-	1	427	-	4	168	-	-	-	601

MAP 2. Analytical map of inhabited places, 1781-1783[c]

Parishes keeping a register. The area of a circle is proportional to the number of demographic events (births, mariages or deaths) recorded in this place by La Michodière in 1781, 1782 and 1783.

Other inhabited places: hamlets, farms, castles, residences of nobility, abbeys and priories.

Main and secondary road networks visible on sheet number 52.

Main and secondary hydrographic networks visible on sheet number 52.
