The enclosed data and code replicates the tables and figures included in the main text of the paper «**Long-term effects of the 1923 mass refugee inflow on social cohesion in Greece**» by Elie Murard. Please cite this paper if you use this code.

All scripts may require modification of pathnames to match the user's file system.

1) Tables and Figures using the 1928 Greek population census
Table1_Fig2.do is a Stata do-file (written for version 17) that reproduces Table 1 and Figure2. It uses the dataset census1928_provincelevel.dta

2) Figures using the 2001 Greek population census
Fig3_intermarriage.do is a Stata do-file that reproduces Figure 3. It uses the dataset census2001_marriedwomen.dta

3) Tables using the European Social Survey
Table2.do is a Stata do-file that reproduces Table 2. It uses the dataset **ESS_natref.dta**

4) Tables using community level data on the presence of sport clubs
Table3.do is a Stata do-file that reproduces Table 3. It uses the dataset **community_sportclub.dta**

5) Tables using municipality level data on voting
Table4_Table5.do is a Stata do-file that reproduces Table 4 and Table 5. It uses the dataset **municipality_voting.dta**

6) Tables using department level data on crime
Table_crime.do is a Stata do-file that reproduces the results on the effects of refugees on crime. It uses the dataset **department_crime.dta**

The 2001 population census is available from IPUMS at
https://international.ipums.org/international/
The 1928 population cenus has been digitalized from ELSTAT Digital Library at
http://dlib.statistics.gr/portal/page/portal/ESYE
The European Social Survey is available at https://www.europeansocialsurvey.org/
Data on sport clubs and elections are available at http://geodata.gov.gr/
Data on crime is taken from Vasilakis (2018)[1]

For the details of the construction of the variables and of the final datasets, please see the published manuscript. For further details and questions, please do not hesitate to contact the author.
