READ ME for 'Feeling ill: perspective-taking and attitudes toward healthcare access for undocumented immigrants.'
Vargas Nunez, Cesar

The JoP Dataverse contains all the files and code necessary to replicate the analyses included in the manuscript and appendix. A description of the materials is included in Table 1 and a summary of the R files is included in Table 2. The dataverse includes each of the two surveys separately (Study 1 and Study 2) and also as a merged file. The replication files rely on the merged survey data file. The dataverse also includes an R file with the code necessary to re-create the merged file. The R files can be run separately, but each contain different parts of the manuscript and appendix: 1) figures in manuscript 2) descriptive statistics in appendix 3) general figures/tables in appendix 4) lived experience in appendix 5) prejudice in appendix.

Table 1: Materials included in Replication Files

Material	Description
perspective_taking_study1.csv	Survey Data for Study 1
perspective_taking_study2.csv	Survey Data for Study 2
perspective_taking_merged.csv	Combined Survey Data
acs_2019.dta	2019 American Community Survey data taken from IPUMS-USA
codebook_survey_jop.pdf	Survey Questionnaire and Codebook

Table 2: Code included in Replication Files

Material	Description
perspective_taking_prep_jop.R	Code needed to merge study 1 and study 2
perspective_taking_main_jop.R	Code necessary to replicate Figures 1 – 4 in manuscript
perspective_taking_appendix_descriptives_jop.R	Code necessary to replicate Tables A1 – A5 in appendix
perspective_taking_appendix_jop.R	Code necessary to replicate Figures A4 – A10 and Tables A6 – A10, and A14 in appendix
perspective_taking_livedexp_jop.R	Code necessary to replicate Figures A11 – A15 (except A14) and Tables A15 – A18 in appendix
perspective_taking_prejudice_jop.R	Code necessary to replicate Figures A16 – A17 in appendix
