D ACTIVITY HISTORY

We will now talk about what you have been doing since age 15. I would like to ask you about the periods when you were studying, working, or neither (for 3 months or more). Although sometimes people combine different activities at the same time, we will discuss only whichever you consider to be your MAIN ACTIVITY (the one taking the most time) in the different periods of your life.

Before we start: Could you tell me if there has been any period in your life in which you combined different jobs, or you had many different jobs of a short duration? [If yes] Please remind me of that when we arrive at that period of your life, so we can summarize it to make the interview shorter

SCRIPT

DEFAULT

1. Ask about main activity:

START:

"When you were 15, and were living in {country}, what did you mainly do (study, work, neither)?

ITERATIONS:

"What did you start doing then (as your main activity, for 3 MONTHS at least)? Did you study, work, or neither?

NEW COUNTRY PERIOD:

"When you started living in {country} in {start}, what did you mainly do (study, work, neither)?

2. Ask end date of that main activity:

"Until when was (studying/ **THIS JOB (or job situation)**/doing other things other than studying or working) your main activity in {country}? → *Check if need to edit end date (D3)*

[*If period steps into another country stay*] "Just to keep an order we will first comment on the period that you studied/worked/neither in (country). So, in this period that you studied/worked/ neither in (country)…

3. Enter mini-questionnaire → *Enter activity (D1)*

Repeat until reaching CURRENT activity

NON-EDITABLE PERIODS (Repeated sequence)

1. Ask about main activity:

"When you lived in {country} between {start} and {end}, what did you mainly do (study, work, neither) during that whole period?"

[If repeated sequence including last stay in LDC and return]

"We are referring now to this first part of the period; then I will ask you more precisely about your last stay in {LDC} and about your last return to {CoS}"

2. Enter mini-questionnaire → *Enter activity (D1)*

Tablet:

1. DEFAULT PROCEDURE

- ***GENERATE automatically as many periods as period stays of 3 months or more [B3)B4)], SHOWING at the top the countries and the dates of entry***
- ***Allow the sub-division of these periods in D2)D3) by editing the end dates in D3)***

2. REPEATED SEQUENCE PROCEDURE [If B3) = 9. Repeated sequence]

- ***Generate two periods with the same start and end dates [=start and end of "Repeated sequence" in B3)B4), SHOWING at the top of each "Repeated stays (start-end dates) in"***
- ***Start with Country 1***
- ***DO NOT allow the subdivision of each country stay into sub-periods (no editing of start and end date in D2)D3)***
- ***If the last MIGRATION period and last RETURN period are included in the Repeated sequence, exclude them and generate independent periods for them following the DEFAULT PROCEDURE***

If an activity lasts for a period that covers various countries, the interviewer will enter this date in "END DATE" and the tablet will automatically generate/update the periods:

E.g. "Studying until 2012" (=covers origin country and one stay abroad) → Tablet will fulfill TYPE OF ACTIVITY for the two periods, START TIME and END TIME for the first (=year of migration); START TIME for the second (=year of migration) and END TIME for the second (declared ending year).

Now I would like to know your views about migration from CoS to Europe in the last 20 years (since the 1990s)

Experts consider that migrants can impact the economy of their country of origin in different ways. If migrants SEND MONEY back, this may help their families, but it may also lead to increasing prices, for instance. The ABSENCE of these migrants in the labour market can help in reducing unemployment, but it can also provoke a lack of manpower or skills. So…

J7)

J7a) In general, would you say that people from CoS who have migrated to Europe (since the late 1990s)… *(Read options)*
