of a person and we'd like you to rate that person using something we call the feeling thermometer. <br/><br/> • Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. •Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person and that you don't care too much for that person. •You would rate the person at the 50 degree mark if you don't feel particularly warm or cold toward the person. <br/>If you come to a person whose name you don't recognize, you don't need to rate that person.
