AUTHORIZATION OF THE HEAD OF SERVICE

Dr. Juan Carlos Martín del Olmo, Head of the General Surgery and Digestive Diseases Service of the Medina del Campo Hospital,

Exposes:

Know the documentation related to the research project entitled: "Validation of a new scoring system for the diagnosis of acute appendicitis: a protocol for an international multicenter study in different ethnic populations".

Approves:

Carrying out this study in the Service, not requiring the authorization of the Ethics and Research Committee, when trying to audit the diagnostic and therapeutic process of acute appendicitis in it, without supposing any alteration in said process for patients.

In Medina del Campo on January 10, 2020.

Dr./Dra. Juan Carlos Martín del Olmo.
Head of the General Surgery and Digestive Diseases Service
