Replication Material for "Am I Eligible to Register? Registration Rules, Eligibility Uncertainty, and Youth Voter Turnout" by Alexander Held (November 19, 2024)

This replication archive contains the code and data to replicate the results in the article and in the online appendix.

Files Contained

replication_article.do: Stata do-file with the code to replicate the results in the article (Stata version 14.2)

replication_appendix.do: Stata do-file with the code to replicate the results in the online appendix (Stata version 14.2)

data.dta: Main dataset for replication of results from the article and the online appendix with the exception of results in Appendix A.16 and Appendix A.17. Note that the dataset does not include data for three states (California, New York, Pennsylvania) for which the author does not have permission to share the data from the state voter file. Due to my institution's data protection policy, I am not allowed to share data from the Florida voter file for the subgroup analyses by gender and race in Appendix A.16.

data_reg.dta: Dataset for replication of results in Appendix A.17

This article used the statistical software Stata 14. The Stata syntax uses the graphic scheme from the (optional) gr0070 package from Bischof (2017). For details, see Bischof (2017) and the Stata syntax.
