Replication of: **Perceptions of social mobility, gender, and progressive politics**

Briitta van Staalduinen (University of Konstanz) & Delia Zollinger (University of Zurich)

Data

The analysis relies on original survey data collected by the ERC-funded project "welfarepriorities" (grant agreement No 71607) in the spring of 2021 in Germany, Sweden, Spain, and the UK. The dataset ERC_replication.Rdata contains the total of responses (N=9037) and the variables necessary to replicate our analysis.

Code

Data preparation and main analysis

The file BvS_DZ_replication.R contains code for recoding and data preparation and subsequently replicates all tables and figures in the main body of the text using R software. It also contains code to replicate all tables and figures in sections A-E in the supplementary material.
