Classification	Precision	Recall	F1-Score
Negative	0.82	0.79	0.81
Positive	0.76	0.78	0.78
Weighted Average	0.80	0.80	0.80

Total Training Observations: 1,117 statements or remarks
Testing Sample Size: 559 statements or remarks
Note: Classification accuracy reports can vary marginally depending on the volume of testing and training samples. Repeated attempts routinely garnered weighted average precisions of approximately 78 to 81 percent with marginally varying precisions for negative and positive classifications.
