University at Buffalo, SUNY

admin1
First-order administrative unit name, i.e. "state/province."

admin2
Second-order administrative unit name, i.e. "country/district"

id
Unique identification number for each second-order administrative unit (i.e., district).

civ
Count of ISIS one-sided violence civilian fatalities at district, semi-month level.

civnear
Total count of ISIS one-sided violence civilian fatalities for all neighboring districts at semi-month level.

civtotal
Total count of all ISIS one-sided violence civilian fatalities across Iraq at semi-month level.

strikes
Count of airstrikes at district, semi-month level.

strikesnear
Total count of airstrikes for all neighboring districts at semi-month level.

strikestotal
Total count of airstrikes across Iraq at semi-month level.

scontest/lcontest
Territorial "contest" at semi-month level. (Strict/Lenient Version of Coding)

scontrol/lcontrol
ISIS territorial control at semi-month level. (Strict/Lenient Version of Coding)

sbase/lbase
Iraqi Government territorial control at semi-month level. (Strict/Lenient Version of Coding)

stercontrol/ltercontrol
Count of districts under ISIS control at semi-month level. (Strict/Lenient Version of Coding)

schangeter/lchangeter
Change in number of districts under ISIS control from previous semi-month.

isisdeaths
Count of ISIS battle-related fatalities at district, semi-month level.

govdeaths
Count of Iraqi Government battle-related fatalities at district, semi-month level.

fighting
Count of all battle-related fatalities (ISIS + Iraqi Government) at district, semi-month level.

proportion
Proportion Sunni population at district-level. Fixed across time.

pop1000
District population, divided by 1,000. Fixed across time.

mosul
Dichotomous variable (0 or 1) for Mosul districts.

time
Cumulative count of semi-months transpired.

time2
Squared, cumulative count of semi-months transpired.

civdum
Dichotomous variable (0 or 1) for ISIS one-sided violence in previous semi-month, at district-level.

fightdum
Dichotomous variable (0 or 1) for battle-related fatalities (ISIS + Iraqi Government) in previous semi-month, at district-level.

strikedum
Dichotomous variable (0 or 1) for airstrikes in previous semi-month, at district-level.

sample
Dichotomous variable (0 or 1) for "restricted sample," as described in manuscript.
Denotes districts with higher confidence of ISIS presence.

Note:
Variables with "lag" attached denote lagged variables.
For example, *strikeslag3* refers to the *strikes* variable, lagged by 3 semi-months, i.e., t-3.
