This is a codebook for the Mexico time series dataset employed to create a figure used in "The Fiscal Roots of Financial Underdevelopment," (Figure 1), which is also reproduced in the supplementary appendix. Below, I list each variable name, define and describe it, and list its sources, if any.

year: this is the year

developmentbankcredit_GDP_pct: This is directed credit to development Banks. Source: Schuler, Kurt. 2015. "Historical Financial Statistics." CENTER FOR FINANCIAL STABILITY.

Mexico_IncomeTaxesCapGains: This is total direct taxation; revenues from taxes on income, profits, and capital gains. Source: INEGI. 2000. "Estadísticas Históricas de México." Aguascalientes, Ags.: INEGI.
