Explanatory Memo for the files accompanying "The Longevity of National Identity and National Pride: Evidence from Wider Europe"

The following files provide a detailed account of the empirical analysis conducted in the manuscript.

- lninp-memo.pdf
  This document: explanatory memo.

- lninp-dataset.dta
  Stata dataset that contains the variables (individual level variable and those country level variables not generate through the do file) used in the analysis. Tables B1 and B2 in Appendix B in Supplementary material document those variables.

- lninp-do-file.do
  Stata do file: syntax file. As documented in the file itself, lines 1-663 generate the variables used in the analysis and define the sample. Lines 665-749 run the results reported in Tables 2-4 of the manuscript. Lines 751-770 run additional statistics and results reported in Tables B3-B7 in Appendix B in Supplementary material. Analysis was conducted using Stata/SE 13.1.

- lninp-log-file.log
  Log file: output with results reported in the manuscript and Appendix B from the software (Stata) used in the analysis.
