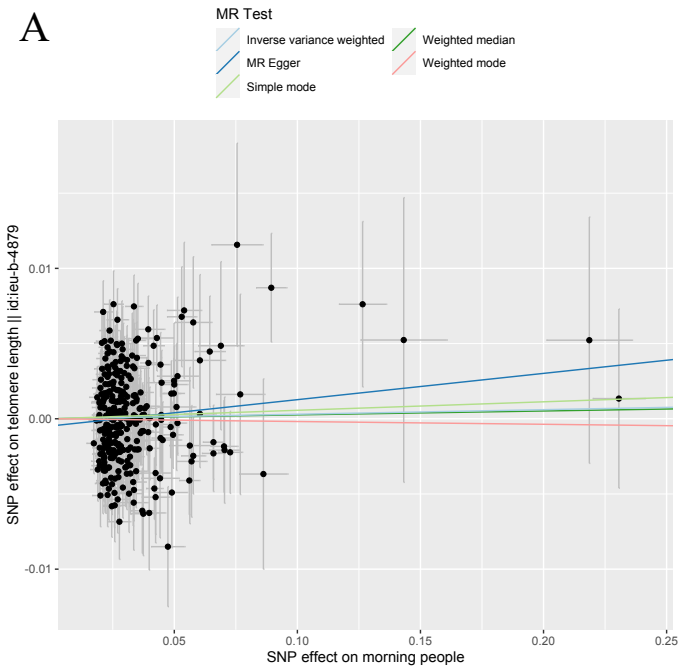
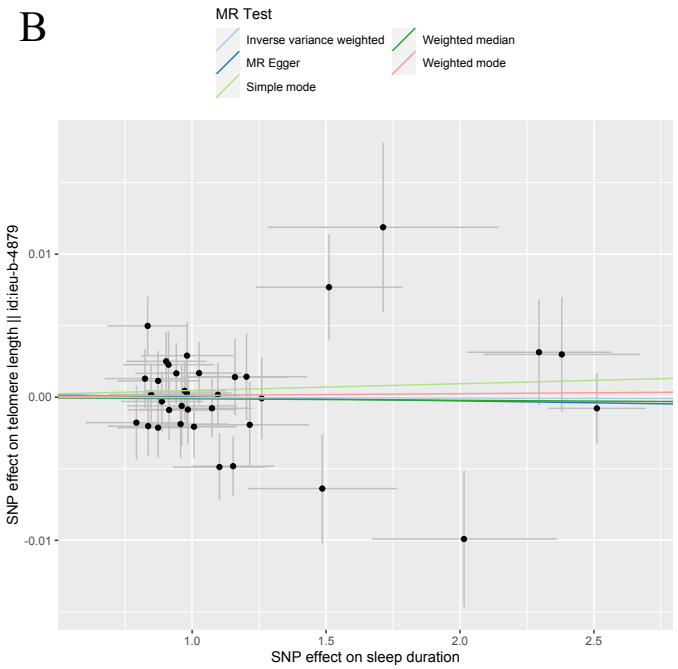
A



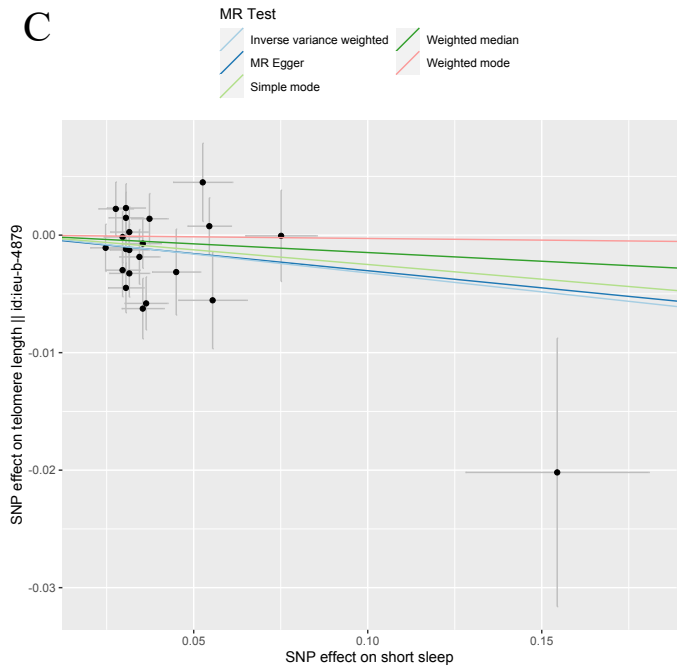
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on morning people

B



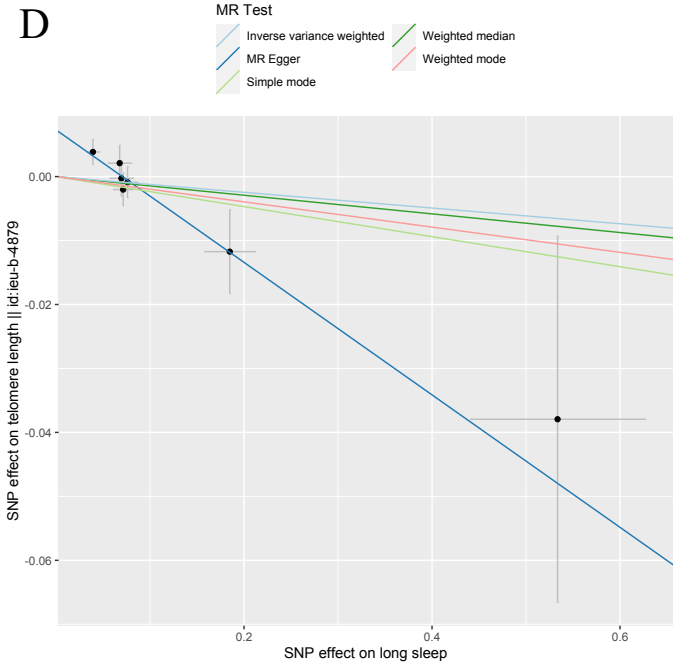
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on sleep duration

C



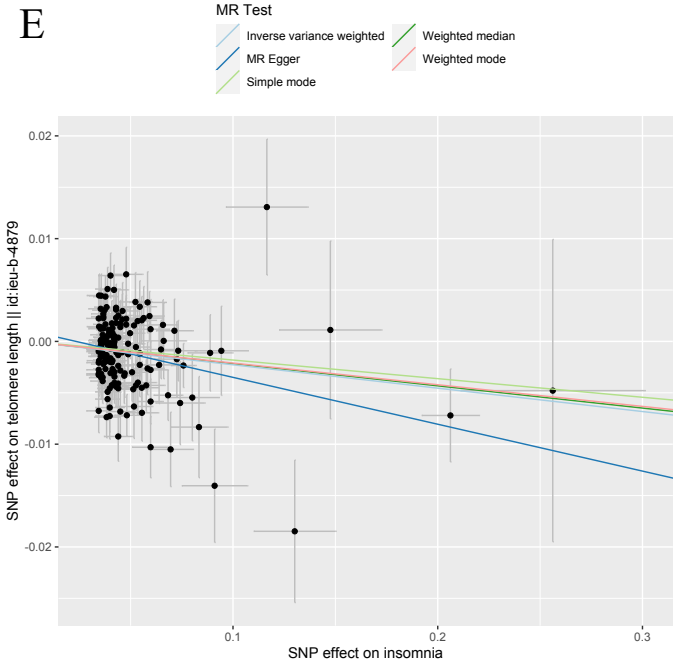
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on short sleep

D



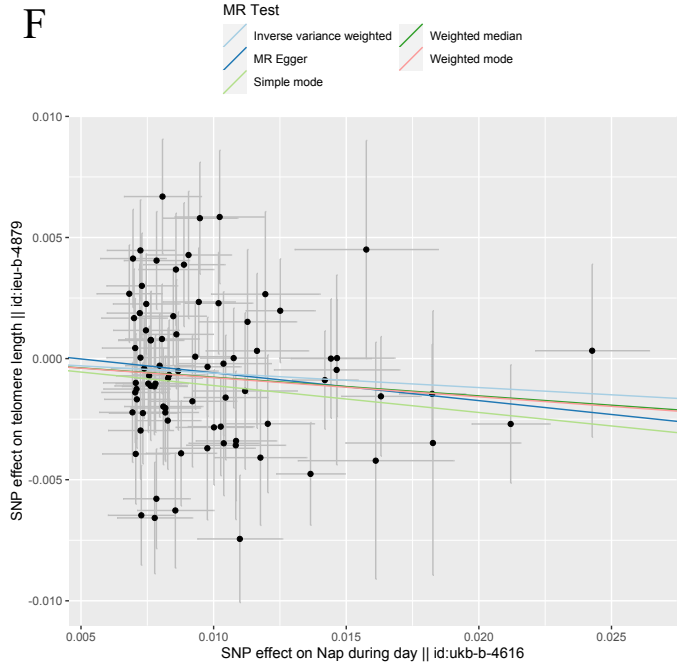
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on long sleep

E



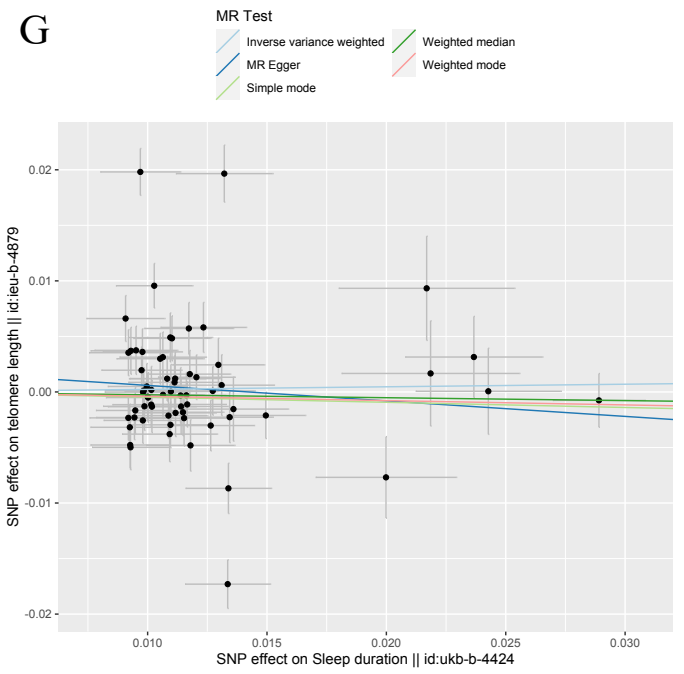
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on insomnia

F



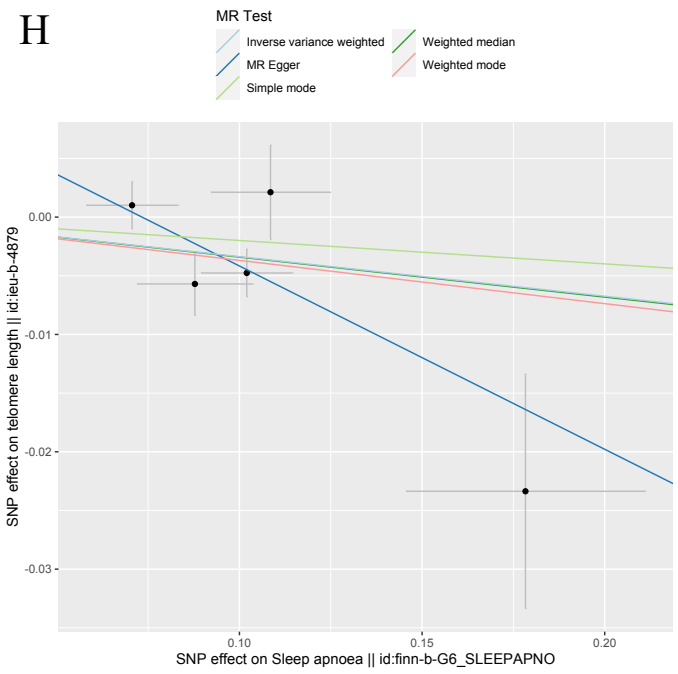
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on Nap during day || id:ukb-b-4616

G



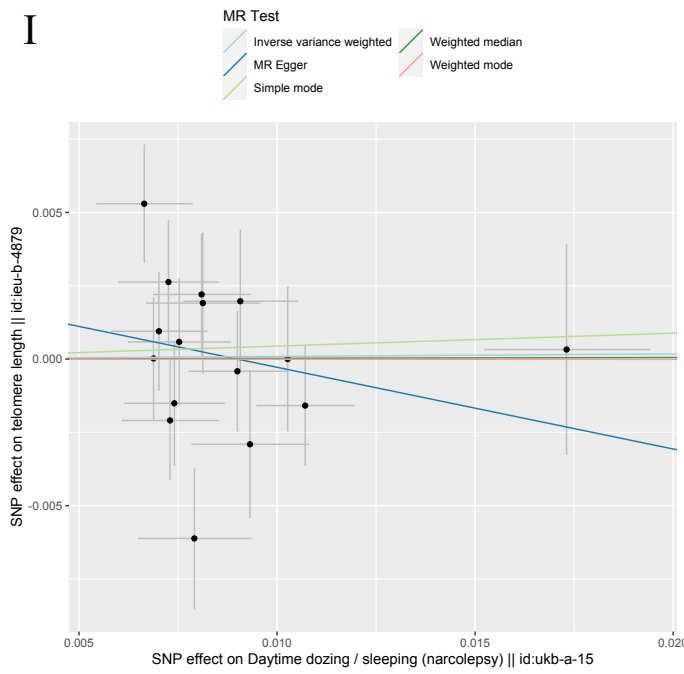
MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on Sleep duration || id:ukb-b-4424

H



MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on Sleep apnoea || id:finn-b-G6_SLEEPAPNO

I



MR Test
Inverse variance weighted
MR Egger
Simple mode
Weighted median
Weighted mode
SNP effect on telomere length || id:ieu-b-4879
SNP effect on Daytime dozing / sleeping (narcolepsy) || id:ukb-a-15
