One Percent Manual Tally of Ballots in the Semifinal Official Canvass
November 3, 2020 Presidential General Election
Summary Report

In accordance with CA Elections Code § 15360, ballots cast in one percent of the polling locations and in one percent of the mail ballot decks included in the semifinal official canvass of the November 3, 2020 Presidential General Election have been manually tallied in order to verify the accuracy of the County's voting system. Six precincts and fifty-six mail ballot decks were randomly selected by a member of the public.

One hundred and eight (108) contests were not represented in the initially drawn precincts; forty-eight (48) supplemental precincts were selected in which those contests were represented. For the supplemental precincts, only those contests not represented in the initially drawn precincts were manually tallied.

Twenty (20) contests were not represented in the initial mail ballot decks; four (4) supplemental mail decks were selected in which those contests were represented. In these supplemental batches, only those contests not represented in the originally drawn batches were manually tallied.

100% of ballots in one-percent of the randomly drawn Declared precincts were tallied. Of the nine declared precincts drawn, three contained voted ballots.

Voters in specific precincts this election, called "Crest" precincts, were provided a "Crest Ballot". 100% of Crest Ballots were manually tallied.
