Typically, differences between the hand count and the machine count are the result of additional or incomplete marks made by a voter on the ballot or the result of counting errors made by members of the audit team.

The margins of error do not exceed the statutory allowance of 0.25%, and therefore, no further action is required by the Board. Official results of the November 3, 2020 General Election will be certified during the Board's regular public meeting on December 2, 2020 at 11:00 am.

The District of Columbia Board of Elections is an independent agency of the District of Columbia Government responsible for the administration of elections, ballot access, and voter registration.
