Voting System Post-Election Audit Report

County: DeSoto **Date of Election:** November 3, 2020

Type of Audit (check applicable box): ☐ Manual ☐ Automated Independent

Precinct Number(s): 14

Race (if Manual Audit): Supervisor of Elections

1. Overall accuracy of the audit:

   98.3%

2. Description of any problems or discrepancies encountered:

   2 machine read, voter fed ballots from Election Day unaccounted for.

3. Likely cause of such problems or discrepancies:

   Uncertain of actual cause of discrepancy. The potential cause of the discrepancy has been narrowed down to a human error during removal of the ballots from the tabulator at the Precinct after polls closed. This issue will be addressed during the next election cycle to elevate the potential of the same error occuring again.

4. Recommended corrective action with respect to avoiding or mitigating such circumstances in future elections:

   Keeping tabulators locked until returned to the Supervisor's office to be emptied. — Not emptying ballots from tabulator at the precinct. If keeping tabulators locked until return is not feasible, providing additional poll worker education.

Check applicable box and sign below:

☑ We hereby certify that the report of the voting system audit performed for the election is accurate and that attached are precinct summary reports for each precinct audited.

☐ We hereby certify that a voting system audit was not done because a manual recount was conducted under s. 102.166, Florida Statutes.
