# Understanding Child Sex Trafficking Using Victim-Level Data

by Martina Björkman Nyqvist, Maria Kuecken, Eliana La Ferrara, and Elsa Artadi, *Economic Development and Cultural Change*

# 1. Introduction

This archive contains the replication files for our paper "Understanding Child Sex Trafficking Using Victim-Level Data". The included data and code can be used to replicate all figures and tables in the published article. We used Stata 18.0 to prepare and analyze the data.

Please note that we are not allowed to publish all source data sets in this replication archive for data protection reasons.

## 2. File Structure

- `README.md`/`README.pdf`: Read-me and introduction
- `input/`: Folder to store data sets
- `output/`: Folder to store reproduced figures and tables
- `ado/`: Folder contains ado file used for Tables A2 and A3
- `Replication.do`: Replicate all figures and tables of the paper
