hahaha shit...scrolling down reading everyones post, this hit me outta nowhere.

EDIT:

FF7 always had some crazy cool religious "stuff"

Yes, but its still cool looking. And it shows nudity in a "respectable" fashion. Its shown as breast, instead of a sexual item, which is cool.

I have this game, but haven't played it started it yet. How are the controls?

I was going to post the SH3 stuff. Dragon Quest is also a game where religion plays a big role. You could say the same for games like FFX, but it's based on different beliefs.

What I liked about FFT was the way it had both loud and quiet religion going on. The loud religion ultimately culminated in the Lucavi, but the quiet stuff was stuff like the Gods reviving Marach, restoring Reis' human form, and the way that Ramza gathered the Zodiac Stones and fulfilled the ZBT without any real fanfare. It was interesting how the game had St. Ajora as the pronounced evil Christ figure, and then Ramza as the quieter one that is only apparent upon observation of the game's plot: Ramza gathered the Zodiac Stones, fought the demons, "died" and then was seen alive again by close friends and so on.

Not good, but it's OK after screwing around with DOSBox keybinding. You'll never get true mouselook, though.

Speaking as someone who didn't even know the game existed before it showed up on GOG, I think it's worth playing.

I feel like Mask of the Betrayer should be mentioned.

To tie in with your avatar - in System Shock 2, after you reverse the gravity on Rickenbacker and go into the chapel, you're greeted with an upside down cross (not the best picture but it was the only one I could find):

Those look straight ripped off from fullmetal alchemist. Unless that's how they are described.

Never before have I wanted to use the, "I don't know how much the rest of you know about religious culture (I'm an expert)," meme, but here...

I can definitively say that nothing from any country rises above "interesting." This gets upgraded to "good" if we count Shinto as a religion and not mythology. "Greatest" is not the superlative to use, yet.
