Hey everyone, I've been wanting to download this game for a while now, but I have a quick question about it first. I was just wondering if the storyline in this game contains any religious themes or references, specifically pertaining to Christianity. The reason I ask is because a long time ago, I saw an ad for this game in a magazine, and I could of sworn that I saw a screenshot depicting what looked like a scene of the crucifixion. Then again, my memory could just be playing tricks on me. But even the title of the game seems to imply that their might be some religious connotations.

I'm kind of a religious person, and I don't really like to play games with these kinds of themes in them (Eg: Xenosaga series, SMT series, etc.) So before I spend 1200 wii points, I'd appreciate it if someone here could clue me in a little bit. Also, topics like these often tend to be breeding grounds for flame wars, but that's the last thing I want. I'm not trying to impose anything on anybody, and I'm just asking for my own personal reasons. So I'd appreciate it if you'd respect my beliefs, and I will kindly respect yours. Thanks in advance for the help. ^_^

There's a sea of blood, which could be thought of as a Revelations reference, but that's more of just a superpower involving blood. The villain says she's fighting againast a god, but it's probably just your average evil ne'er-do-well- Treasure aren't one for great depth. There's no crucifixion, definitely, and if you're able to complete your average FF (e.g. VII or VIII, not something more risky like X or FFT) without taking objection then you'll be fine with this. Anyway, you can just ignore the plot.

The title actually refers to the two protagonists punishing the sin the bad guys have done to Japan. Achi is shown to be a physic and at first the game depicts her as good but you'll find a change in that when you have to stop her from destroyint the earth *major spoiler:P*
