i heard a rumor from my freind about halo being very loosely based off a book, and i saw the book but didn't read it. another thing i heard was that halo and ring shaped planets was a reoccuring theme in a lot of sci fi novels

Not directly. Halo pulls influence from all sorts of sources. The Bible, Norse Mythology, Generic Sci-Fi 101; from all over the place.

pish halo is almost word for word from the bible.

john 1:17 "and then the master chief took up the glowing blue holy grenade and flung it at thy elite. the grenade stuck to the mortal form of satain only to exploid seconds later in a beautiful light from god. And so Johnson turned to the desciples and told them to do as master chief does"

actually, Halo's mostly based on the Ringworld trilogy (which is in turn based primarily on the Bible). In Ringworld (Halo), there is a group of human cyber-soldiers that have just discovered a "planet" shaped like a ring, and there is a zealous religious fanatical race (not called the Covenant, it's called something like the Faithful i think), and there are creatures a little like the Flood, only they are a form of alien fungus that controls the brain an slowly mutates the body. It is disturbingly similar to Halo, and if you read the trilogy you could possibly get some hints about the end of Halo 3...;)

it wasn't one of the modern halo books this one was from the 80's or 90's and my friend said it had very little to do with the halo games, thats where the whole recurring theme in scifi books comes in.

It is based on a lot of things. Yes it is based on things from the bible, but also from ancient times and mythology. Things like that fact they are called Spartans or the Spartan's armor "MJOLNIR" which i thought i heard was actually the name of Odin's hammer or something.

Things are based off stuff all the time. Plus the books (halo books) are actually from the game.

What is the book called that is based off the game?

I know Halo took a good bit of idea from Aliens, especially Johnson from Apone and the Pelicans.

No you got it backwards the book is based very loosly on the game. I've only read the first one, but it seems to be a prequal to the game. Also ring planets aren't all that popular in Scifi novels (that I've read atleast).

While it is correct that there are several books based on the games, the game is in fact based on a book (Which I have read). Ringworld by Larry Niven came out in like the 70's. the concept of the ringworld is the only real similarity between them and the one in the book is way bigger (encircles a star) but the basic concept is there.

Actually, it's a notebook, the "Halo Bible" to be more specific. It's about five pages worth of writing from Joseph Staten and staff. Each time they make a game Joseph randomly picks a page, rips it to bits, tries to rearrange it, tosses the pieces that don't fit, and uses the remains to establish a plot.

[QUOTE="gamez-elite"][QUOTE="Blk-Gnome"]
halo is based off the bible.

John 1:17

Halo

the arbiter

the heritic

the Flood

the covanant

the ark

Not directly. Halo pulls influence from all sorts of sources. The Bible, Norse Mythology, Generic Sci-Fi 101; from all over the place.

Aliens! Marine uniforms, Johnson/Apone, Dropships.

> *While it is correct that there are several books based on the games, the game is in fact based on a book (Which I have read). Ringworld by Larry Niven came out in like the 70's. the concept of the ringworld is the only real similarity between them and the one in the book is way bigger (encircles a star) but the basic concept is there.*
