Proceed to troll, but you know it's true.

Thane: "Amonkira. Lord of Hunters. Grant that my hands be steady, my aim be true, and my feet swift. And should the worst come to pass, grant me forgiveness."

Tali: "Keela se lai."

Liara: "Thank the goddess!"

Plus those are just fake religions. Not real religions...uh, that didn't come out right.

Well I don't think terms like the equivalent of "Oh my God" really denotes a person being religious. I've even heard professed atheist say it, because its just a figure of speech. Thane is the only one who shows himself in this series to be actively religious. Ashley talks about it, but doesn't really show it and I would assume BW did that by design.

Ramza1 4 years ago #6

I think this is a big part of the Ashley hate, but I have to ask, do we really know that she's a Christian?

I recently played through ME1, and she talks about a single God, but I don't recall any reference to the Bible, Jesus, or even prayer. Couldn't she just be a non-denominational monotheist or even a deist?

Less "mainstream" religions get a pass, for some odd reason.

i agree with Gek2. People are blinded by their own personal dislike for a particular human religion so they jump at the chance to seem "cool" or "enlightened" by dismissing it and they call Ashley a "bible thumper" even though she's never tried to convert anyone or threaten them with damnation for not thinking the same way she does. She seems to think that good people get to go to heaven regardless of what they believe, so why does anyone care what she believes?

You also get to pretend to be cool and enlightened if you hate racists, which (I think) is why some people have latched on to Ashley's mild xenophobia and call her a bigoted christian racist. It's fun feeling superior fictional characters, isn't it?

I'm not sure how, I'm not sure why, but I'm almost certain that you owe me money!

The "problem" is the fact that Ashley made it a part of her character due to discussing it with Shepard.

Though IMO, the real issue is that Bioware forces Shepard to bring it up. Ashley mentions how her dad is probaly still watching, and despite the fact anyone would know what that means Shepard is forced to either go "You mean from Heaven?" or say "Whats that mean? HE A ZOMBIE!?"

Annoyed me that Shepard be forced to comment on that detail when in an actual conversation a person wouldn't pick up on that.

Mordin wasn't really religious, he had a crisis in faith and tried out multiple religions to try and make himself feel better.

You don't have to be religious and spend every waking moment going on about it. Ashley really only had one scene in ME1 where she really talked about it and most people are like "ewww she believes in something, thats gross".

I thought the "cool" thing these days were respecting people's differences (gay rights and all that) instead of putting them down for it.

Yep like the above poster said, no one ever said Ashley was a Christian, secondly, all religions have the potential for "horrors" as you say. Sacrifices, wars, persecution, these things can and in many cases has happened for any and all religions.

Well, Thane, Liara, and Tali dont use their religion as some kind of excuse for xenophobia. The problem with Ashley is that she too closely resembles a member of the modern day tea party, while Thane for example resembles some kind of Buddhist monk or something.

I didn't know that taking your God's name in vain made one more religious, OP. I'm pretty sure it's bad to do that in the CHristian mythology, but I'm not sure.

Anyway, how can you claim this is a fact? Did the writers say it, or did you examine Ashley and then cross-examine the other characters? Personally I found Ashley to be more religious because she mentioned actually taking solace in the whole afterlife/God stuff. The other characters you listed might just be saying these things by rote, like a former Catholic who crosses him/herself in times of crisis. The gesture is comforting, even if there's no religious belief present.

Look! The East is burning red!

Ramza1 4 years ago #24

Well, Thane, Liara, and Tali dont use their religion as some kind of excuse for xenophobia.

I don't think Ashley does either. It's not like she's claiming humans are "God's people" and aliens aren't. The cause of her xenophobia is based around the first contact war and Shanxi, and the general observation that people tend to "look out for their own."

The problem is that in the modern real world, we have a stereotypical "Christian racist" type of person. A small minority of people like the Westboro Baptist Church who have ruined the image of Christianity for all the other Christians.

Maybe it's just human nature at work to try to fit people into categories , even when it doesn't make sense.

Some people see that Ashley is both religious and (mildly) xenophobic, and I guess they just turn their brains off, drop her into the "bigoted bible-thumping redneck" category and never look any further than that.

Honestly though, I see more people defending Ashley than dissing her these days. I guess it must have become "cool" and "enlightened" to actually pay attention to someone's beliefs before you label them a racist redneck and try to look "cool" and "enlightened" by hating them for it.

Besides exclaiming "Keelah" and "Goddess" once in a while, Liara and Tali didn't seem that religious to me.

Even atheists sometimes exclaim "Oh my God" or "Goddammit". It's force of habit. People just throw those exclamations around so much, and using something else in their place sometimes doesn't feel as natural.

I think Thane and Samara are the most religious.

Fake religion.lol

There are literally thousands of religions on Earth right now and even in a major religion like Chrisitianity have even more contradicting subsets - Catholicism, Protestants, Mormon, Evengelical, Jiahevoahs witness etc..... many versions of their holy book the bible.
Old testament, new testament, King James, Book of Mormon, American Bible 2.0....

If there is only one true religion the rest must be fake.....

I really wish they would teach comparative ancient and current religions as a high school curriculum - a good way to encourage critical thinking and force those to scrutinize their religious beliefs.

She never said nobody was criticizing her. She actually *asks* Shepard if there is a problem with her being religious because she doesn't want to make him feel uncomfortable.

She *does not* just come out and say "LOOK AT ME! I'M RELIGIOUS AND I DON'T CARE WHAT YOU THINK". It was more along the lines of "Sorry, if you don't like it, I'll just drop it." In fact, the subject of religion is brought up very naturally in the dialogue.

lllVoltlll 4 years ago #42

The obvious solution to this debate is to leave her on Virmire like I did.

Beyond Thane and Ashley and maybe Samara. Few if any characters actively and openly profess religious beliefs. Saying 'oh my god' does not make you religious. Honoring those who came before you like Tali's people is not religious either, its just respectful.

I think people are misreading Ash's religious position. She believes. She does not throw it in your face. She simply wishes to get it out in the open and find out from the Commander if it is a problem, that being it is, she is very willing to drop it and keep it to herself. Which is perfectly fine.

What, at least for me, caused me to dislike her a bit was her very forward and slightly xenophobic views on aliens. Her displeasure of aliens comes from lack of interaction and personal bias borne from her family history. Considering what was at stake in ME1 I felt she needed to overcome her distrust like Pressley did. I don't know that she did. Which is why Kaidan got picked up.
