So I was looking into this game and it looks pretty cool tbh but I heard this game is very religious heavy. Is it actually mocking religion and you get to kill god and jeebus (would be totally cool since I am getting tired of killing greek and scandanavian gods in games :P) or is it more of a propaganda pushing crap or is it pure awesomeness like SMT games and doesn't get too bogged down by religious themes??

You are a holy warrior of God. You receive your orders from a pre-fallen Lucifer - Your friend and the only one who talks directly to God. Your job is to kill all the fallen angels.

Every fallen angel is so powerful that they have their own realm. All the realms are designed based upon on what that fallen angel's idea of perfection is and the unique art styles of each realm reflects that.

For example. In the Demo the realm of the fallen angel that you are in is obsessed with Earthly beauty and ditched Heaven for it. His/Her realm has a Sun/Moon Day/Night shifting effect and is very beautiful to look at.

I asaume that later on in the full game Lucifer will fall too.

Jesus is not in this game and you never directly see or hear God.

I'm not going to spoil anything about Lucifer falling or not, but yeah, it's pretty much what Dragunov_4_ever said.

The game has religious themes but it doesn't really delve into it too much. There's only a bit where Enoch becomes sullied and has to wander around questioning why he's doing it, in a weak attempt to show us it's his choice, or something.

If anyone's concerned about this title messing up their Christianity or Judaism or whatever, I mean, you may take into consideration that it's based on the First Book of Enoch (and parts of lore from the Book of Noah and the Third Book of Enoch), which is not included in modern religious canons. Many themes found later in texts currently used in modern religions do occur, but I mean...the events and characters in the Book of Enoch are just barely even referenced in current religious texts.

the Book of Enoch is part of the appocryphal parts of the bible . the stuff that was lef tout of the christian canon. As you can see it was some what of a fantastical story .

I started out with nothing & still have most of it left

^ It's been left out of all canons, actually—Jewish as well.

This is probably the most appropriate and accurate opportunity to say "this is not canon" on these boards =)
