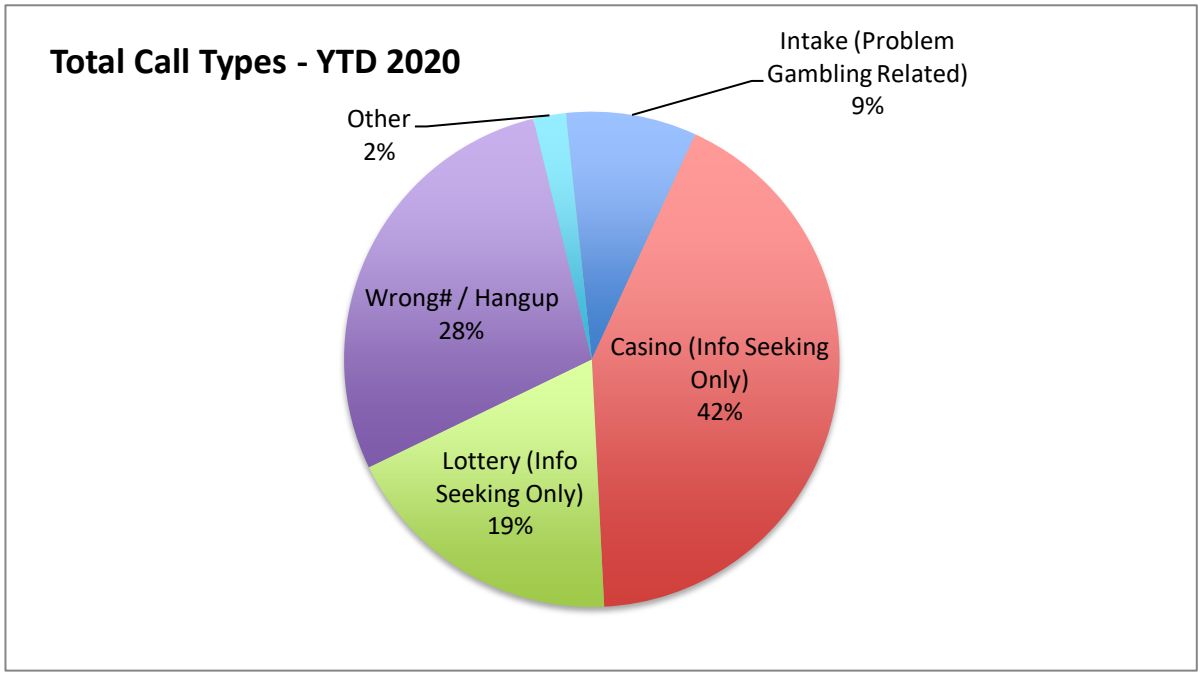
Figure 1



Every call that is made to the Helpline Center is tracked and noted by type (fig. 2). A majority of calls received are typically information inquiries (last night's lottery drawing, room reservations, etc.). *The calls received by the HelpLine Center labeled "Lottery" and "Casino" are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*

Figure 2

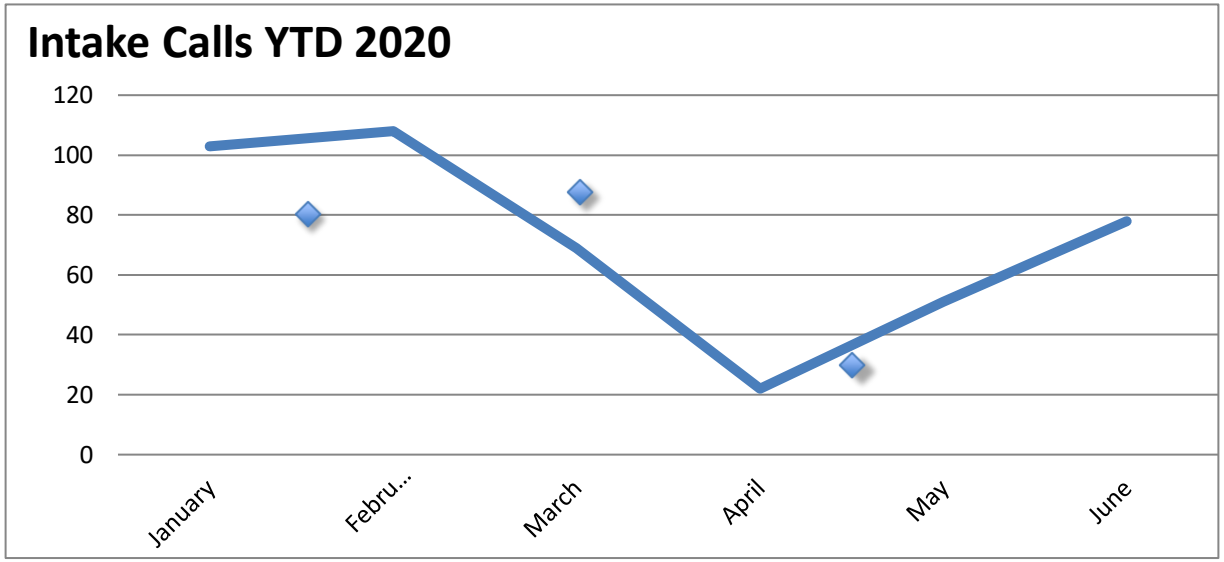


Figure 3

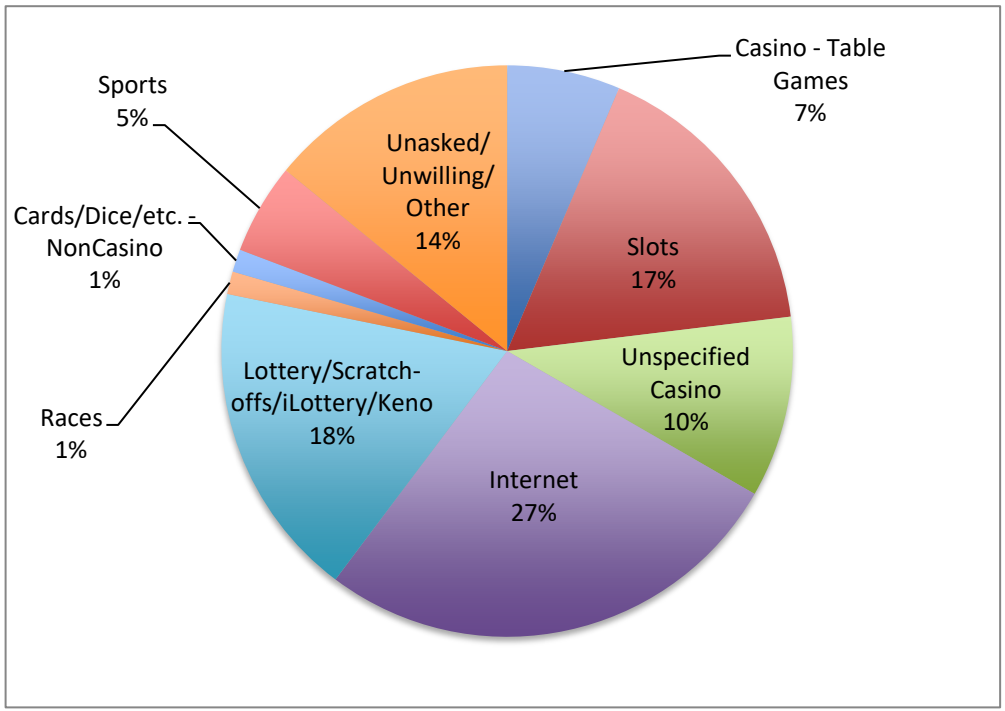
Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. **For the month of June 2020, the total number of intake calls was 78 (fig. 3).**

The Council has received 15 chat/text requests for help in June 2020. This is in addition to the 431 phone calls requesting help so far this year.



One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Internet gambling was the activity named during the majority of calls in June 2020 (fig. 4). This is likely related to the restrictions and resulting lack of access to all in-person gaming venues due to COVID-19 for most of the month.
