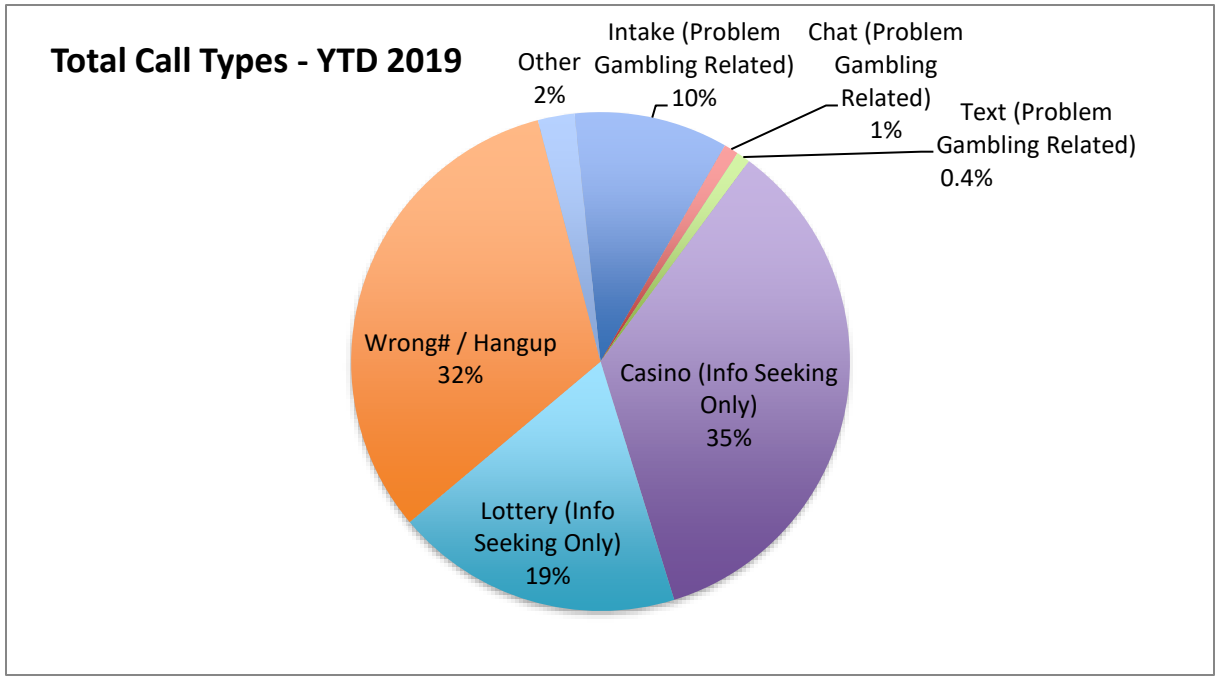

Figure 2

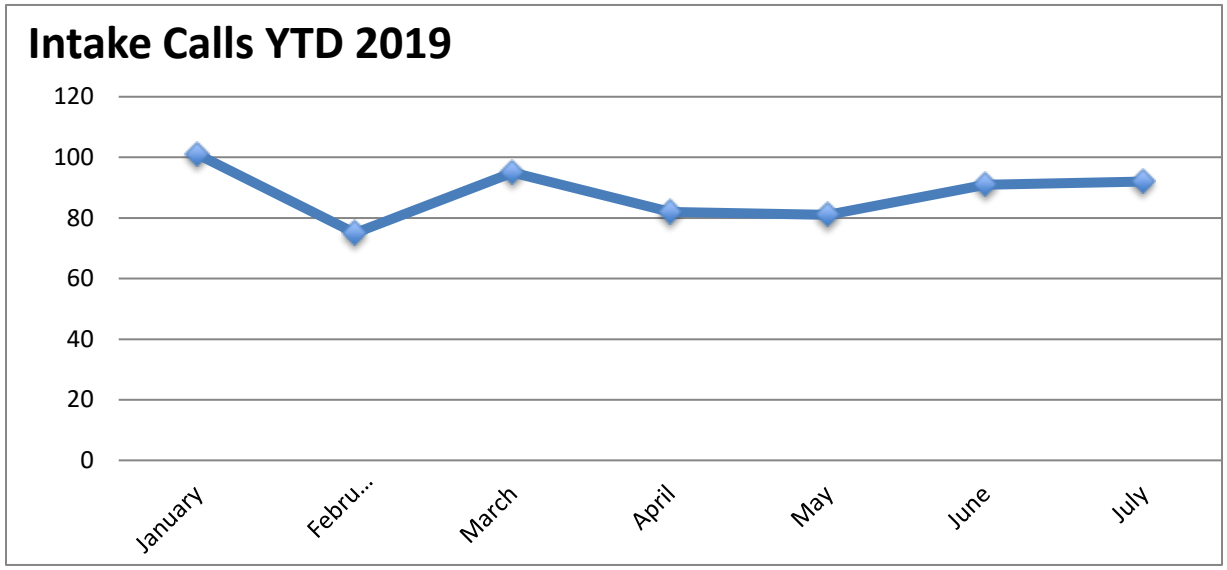
Every call that is made to the Helpline Center is tracked and noted by type (fig. 2). A majority of calls received are information inquiries (last night's lottery drawing, room reservations, etc.).

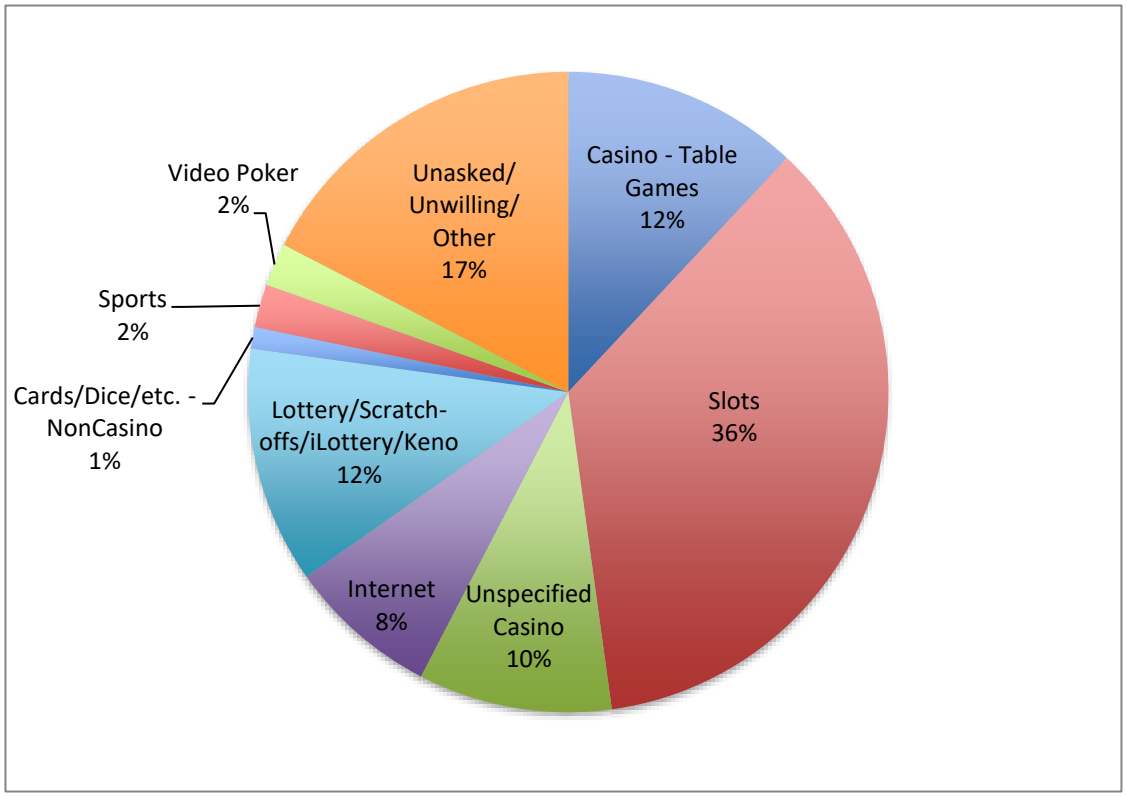
July 2019 saw a slights increase in intake calls, with 91 in June and 92 in July. *The calls received by the HelpLine Center labeled "Lottery" and "Casino" are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*



Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. **For the month of July 2019, the total number of intake calls was 92 (fig. 3).**

The Council has received 113 chat and text requests for help to date in 2019. This is in addition to the 617 phone calls requesting help so far in 2019.

Figure 3



One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Slots and other casino based games were the activity named during the majority of calls in July 2019 (fig. 4). This may be related to high visibility of the Helpline number throughout each of the 12 casinos that currently operate in Pennsylvania.

Figure 4

This month, Philadelphia and Allegheny counties accounted for 33% of intake calls. In July 2019, the Helpline saw Bucks, Lancaster and Luzerne counties make up an additional 15% of intake calls.

In November 2015, the Council on Compulsive Gambling implemented a 'chatline' and 'text for help' option into the existing Helpline Services. Like the Helpline, the chatline and text options are available 24/7 and provide an additional level of anonymity for those who may not be ready to physically verbalize the issues they are experiencing. Since the program began, we have seen continued use of these services and are pleased to offer another available resource for individuals seeking assistance.
