Replication Data for:
Emotions on our Screens

Talbot M. Andrews, Lauren P. Olson, & Yanna Krupnikov

Overview:

Included here are the files necessary to replicate all figures and tables from "Emotions on our Screens," accepted at *Elements in Politics and Communication,* Cambridge University Press.

Included in this replication materials are:

1. A .do file with the code to replicate all figures and tables in Stata 17
2. Data for Studies 1-6 in .csv format
3. Codebooks for Studies 1-6 with the question wording and description of how each variable is coded in the respective study

Instructions for replication:

In order to replicate all tables and figures, open the .do file and replace the working directory with your working directory. Running the.do file will generate all tables and figures from the manuscript.

Note: To generate all figures and results included in all tables, please confirm you have downloaded all packages noted at the top of the .do file.
